

Message from the President

Thank you for becoming a member of PMI and the PMI Southern Maryland Chapter! We appreciate that you have chosen to network and get involved here, and we know that our growth is, in part, due to your choosing us.

The PMI Southern Maryland Board of Directors is proud to serve you, our local PMI community, and we look forward to continuing to provide outstanding events and extensive membership benefits to you. Join us as we support you in your PM journey and we grow together as a professional organization that equips you to manage projects better and serve your community.

Please take a few moments to view our schedule of meetings, classes, networking events, and other opportunities to earn PDU's in your community on the PMI SoMD website. We have a lot going on, and we look forward to seeing you at an upcoming event soon!

If you get a chance, when you register for our next chapter meeting, we would like to recognize you as a new member. Please send me an email at president@pmisomd.org or send a note to membership@pmisomd.org and we will be sure to recognize you and introduce you to your peers.

If you would like to provide feedback or get further involved, please email me at president@pmisomd.org or visit our website at www.pmisomd.org, which contains information about our chapter and available opportunities.

Thank you again for joining. We hope you enjoy your membership with PMI SoMD!!!

Jeffrey P. Yellets
President | CEO
PMI Southern Maryland Chapter

Membership Team

Vision, Mission & Objectives

Vision

The PMI Southern Maryland Chapter will be recognized as a dynamic leading-edge organization comprised of dedicated project management professionals who are committed to serving the business and educational community of Southern Maryland through the advancement of Project Management knowledge.

Mission and Objectives

- Provide a forum for project management professionals and business community leaders.
- Promote PMI principles through networking, sharing project experiences, providing and receiving training.
- Support project management professionals with certification efforts.
- Advance the mission and objective of the PMI within the Southern Maryland area.
- Develop a growing and committed membership in Southern Maryland through an aggressive recruiting plan.
- Promote professional project management principles and techniques with local businesses, universities, and professional associations.
- Develop and provide quality programs based on Southern Maryland project management needs.
- Create and maintain an evolving education program that supports the PMI Professional Certification Program.
